

2063 GEOMETRY

Grade Level: 9 - 12

Credit: 1

Fees: None

Prerequisites: Algebra I

This course is a study of geometric relationships in a plane and in space, designed to develop an understanding of the meaning and nature of proof; to teach the method of deductive proof in both mathematical and non-mathematical situations; to develop the ability to think creatively and critically in both mathematical and non-mathematical situations; and to integrate Geometry with arithmetic and Algebra.
